

K-LOVE serves as outside wholesome entertainment for my hole family in this small rural town. If displaced by an LPFM broadcaster program, this outside influence would be lost. It is also great that K-LOVE is considered my famalies hometown radio station that can be listened to anywhere we go. This also gives us a bigger bang for our buck in supporting this programming. K-Love gives us an opportunity to connect with other people of like minds both in our community & outside. Anything that unites this country has to be in the public's best interest
